What is a Talent Community?

Talent Community partners connect with candidates who are seeking employment opportunities.

They invite their candidates to create an online profile tailored to the roles and they are verified in terms of work experience & qualifications.

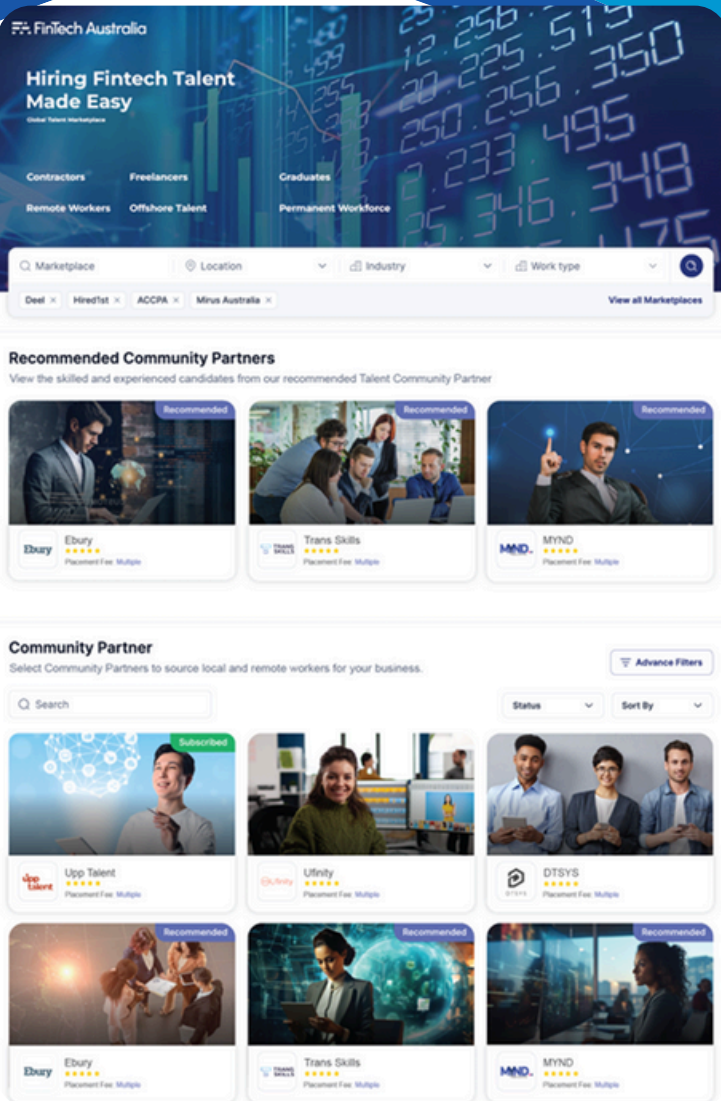

Partner with our Talent Marketplace Partners

We connect you with our Marketplace Partners who foster a network of employers in your sector.

Your Community is promoted to the employers who can search and hire your candidates. The employer pays a placement fee and you receive a percentage of the fee.

Workforce Wallets

We create free searchable digital profiles (Workforce Wallets) for all of your candidates. Employers view their work experience, availability, skills and compliance in filtered searches.

How we rank jobseekers in Talent Pools

Your candidates are ranked dynamically against your job roles in the following areas:

- Recruiter Insight (AI CV matching to the job role)
- Job Match Scores (Compliance and Skills Gap analysis)
- Work Ready Shields (Assessment of core items to be onsite)

Who Your Are?

Community partners have access to candidates looking for jobs in a sector. You are a university, training group, EdTech, recruiter and/or government.

Your Responsibilities

Community partners provide:

- marketing to their candidates
- promote candidate registration
- upload candidate database
- adding job role communities

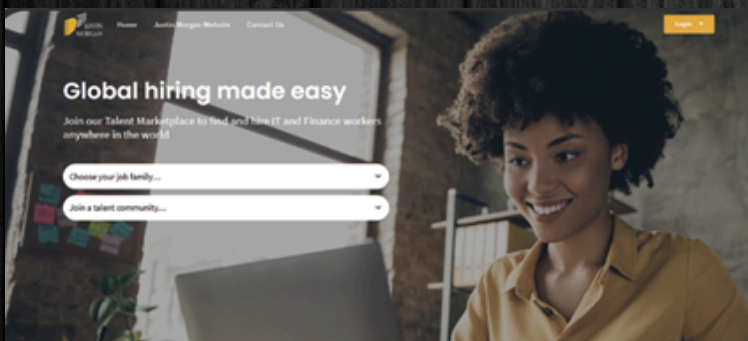

Our Responsibilities

Hired1st provide the following:

- license to marketplace software
- hosting, back-up & 24/7 support
- set up of your marketplace portal
- design of your portal
- Partner success services

Revenue Share

Community Partners receive 20% of the placement fee paid by employers in Talent Marketplaces.

Global hiring made easy

Join our Talent Marketplace to find and hire IT and Finance workers anywhere in the world
